Last notice for EIG 1 Day Meeting 21 June 2017

Exploration and Investigations, Practice, Recent developments and Techniques.

Venue: Stratford Manor Hotel, Stratford on Avon,

This is the EIG's third one day technical meeting; the meetings are biennial and alternate with our two day university based conferences. The themes covered aim to be directly relevant to one of the several sectors that geoscientists, involved in the extractive industry, will find particularly helpful in their professional activities. So far, in 2013 we had a meeting on geotechnics, principally rockfall, and in 2015 a meeting on hydrogeology mainly concentrating on aspects of flooding.

This meeting touches on a fundamental side of Extractive Industry Geology, namely the geological investigations and reporting that go into confirming the presence of reserves and resources. The talks cover a range of topic to be given by very experienced practitioners in their sphere. Some recent developments will be covered as well as matters to be

avoided.

One of the features of these meetings is that time is allocated for questions and discussion as well as providing an opportunity for networking. Those who attend include industry staff, consultants, contractors, academics and regulators. There will also be trade stands to visit during coffee, lunch and tea breaks.

The aim is that all attending will gain in terms of their understanding of good practice. A CPD certificate will be issued to those who attend.

Please book promptly as limited places remain; booking arrangements are shown on the EIG Conferences website:

www.eigconferences.com

The Programme

Many thanks to the major sponsors of the EIG Conference 2016

Registration 08.15 - 08.45 (note exhibitor stands to be set up between 08.00 and 08.30 or if later between 10.40 and 11.10). Tea, coffee and pastries will be available on arrival with networking and viewing of exhibition stands before 09.00.

- | | |
|---------------|--|
| 09.00 – 09.15 | Introductions - Geoffrey Walton
(for EIG Conferences Ltd) |
| 09.15 – 09.45 | Health & Safety in site investigations and drilling operations - Cath Pickett (Health and Safety Executive) |
| 09.45 – 10.15 | Land use planning aspects of mineral exploration - Dr Alan Thompson (Cuesta Consulting) |
| 10.15 – 10.30 | Q&A session and discussion |
| 10.30 – 11.00 | Tea, coffee and biscuits and viewing stands |
| 11.00 – 11.30 | Sampling and testing aggregates, rock and stone - Dr Ian Sims (RSK) |
| 11.30 – 12.00 | An overview of the PERC Standard for the reporting of construction materials and industrial minerals - Ruth Allington (GWP Consultants) |
| 12.00 – 12.20 | Q&A session and discussion |
| 12.20 – 13.30 | Buffet lunch and viewing of stands. |
| 13.30 – 14.00 | Developments in geophysics for mineral investigations - Dr Jon Chambers (BGS) |
| 14.00 – 14.30 | To Krige or not to Krige? The application for Geostatistics for Geological Modelling
Richard Siddle and Dr John Forkes
(Addison Mining Services) |
| 14.30 – 14.50 | Q&A session and discussion |
| 14.50 – 15.15 | Tea, coffee and cake and final viewing of stands |

The Programme continued ...

- 15.15 – 15.45 Marine sand and gravel prospecting and seabed investigations for aggregate extraction - Dr Andrew Bellamy (Tarmac)
- 15.45 – 16.15 Some pitfalls in undertaking mineral investigations – Dr Alan Cobb (GWP Consultants)
- 16.15 – 17.00 Q&A session chaired by Craig Arditto (Tarmac)
- Followed by concluding remarks and notices from the EIG Chairman Nick Horsley (Mineral Products Association).
- Stands to be cleared by 17.30

Programme Flyer's

If you are interested in adding a copy of your companies flyer to the meeting handouts this can be arranged for £25. Please contact Geoff Walton for information:
